Tyson's Station now has the option to order a 64 gallon trash container as well as their choice of a 64 or a 35 gallon recycling container. The small 18 gallon bucket style bins will still be made available for those that prefer them. Please contact 703-818-8222 to order or you can email [hoa.nova@republicservices.com](mailto:hoa.nova@republicservices.com). If you are ordering a recycling cart, please advise if you are exchanging a small bin for the cart. Homeowners may discard personal containers with the regular trash by placing a sign reading BASURA on the item and having it curbside by 6am.
